INTRODUCTION

The 2024–27 Strategic Plan communicates the Commission’s priorities and defines the change it hopes to achieve through its investment of \$44.6 million over the three–year period. Developed with community input and centering racial equity, diversity, inclusion, and cultural responsiveness, the plan includes five priorities and nine goals.

This Implementation Plan is the next phase of the Commission’s Strategic Plan process and serves as a complement to that document. The Implementation Plan outlines the specific strategies to be funded during the next 3–year funding cycle. These strategies are expected to achieve the Commission’s goals and outcomes as outlined in the 2024 Strategic Plan.

FIRST 5 SACRAMENTO COMMISSION FOUNDATIONAL STATEMENTS

VISION

Sacramento County will have strong communities where children are safe, healthy and reach their full potential.

MISSION

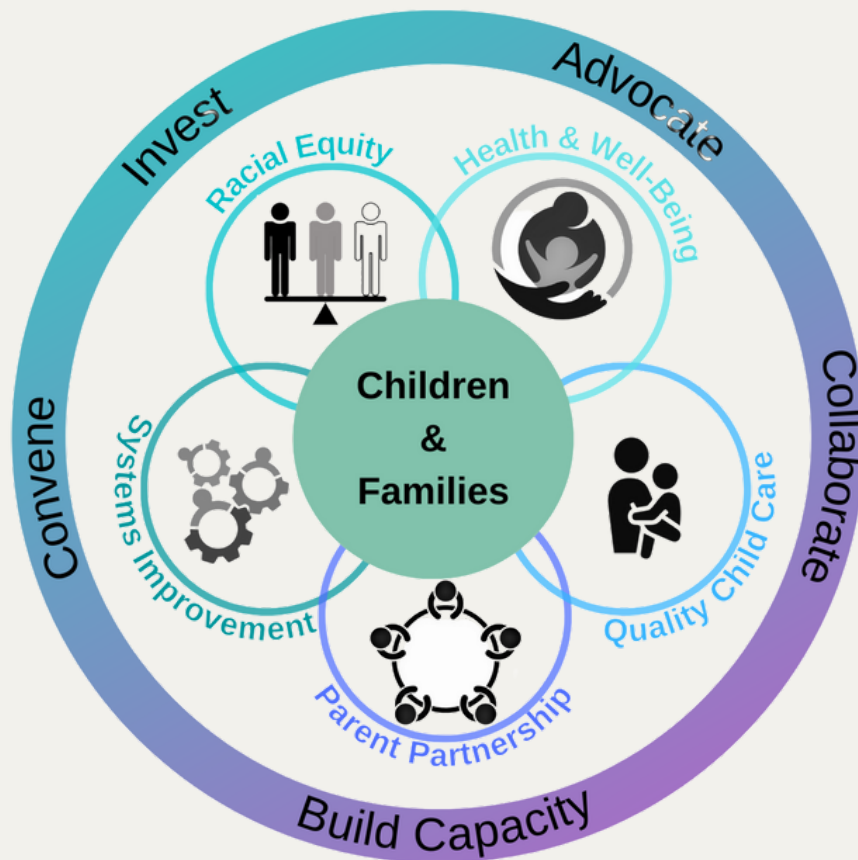

In partnership with parents, caregivers, and their communities, we seek to advance equitable, inclusive, and culturally responsive prevention and early intervention policies, systems, and practices that eliminate racial inequities, promote optimal health and development, and improve the lives of children prenatal through age five and their families.

FOUNDATIONAL PRINCIPLES

1. Make narrow and deep investments to achieve the greatest impact.
2. Look for opportunities to leverage other dollars to sustain critical services for children and families.
3. Choose strategies that promote prevention, early intervention and community collaboration.
4. Make data informed decisions that address community strengths and needs, build community assets, and prioritize underserved children and families.
5. Focus services on the county's most vulnerable families to reduce disparities in access to equitable, quality services and outcomes.

IMPLEMENTATION PLAN OVERVIEW

In support of its mission, vision, and foundational principles, First 5 Sacramento has prioritized five areas of focus for long-term investment (2024 – 2034) as seen in the conceptual framework below. Children and families are at the center of the framework, informing and touched by all that First 5 does. The five priorities encircle this center, interlocking as an illustration of their interdependence. Around the outside are First 5’s Core Functions: to invest, advocate, convene, collaborate, and build capacity:

Information about planned expenditures and a summary sheet of each priority follow. The summary sheets list potential indicators that could measure progress in each priority area. Summary sheets detail the strategies, the primary population to be served, the funding mechanism, and the three-year allocation for each strategy. Each chart ends with the costs for the priority area delineated by expense category.

PLANNED EXPENDITURES

Funding for the three-year Strategic Plan period totals \$44.6 million. This allocation includes expenditures for Administration, Evaluation and Program. Planned expenditures for each Fiscal Year are as follows:

	FY 2024-25	FY 2025-26	FY 2026-27	Total
Administration	\$1,250,558	\$1,250,558	\$1,250,558	\$3,751,673
Evaluation	\$464,727	\$464,727	\$464,727	\$1,394,180
Program	\$13,164,716	\$13,164,716	\$13,164,716	\$39,494,148
Total	\$14,880,000	\$14,880,000	\$14,880,000	\$44,640,000

Planned program expenditures for the three-year period by Priority are as follows:

PRIORITY AREA	Total Program Expenditures	Percentage of Program Expenditures (\$39,491,148)
P1: Racial Equity	\$5,239,483	13%
P2: Health & Well-Being	\$25,498,817	65%
P3: Quality Child Care	\$1,746,494	4%
P4: Parent Partnership	\$1,047,897	3%
P5: Systems Improvement	\$1,397,195	4%
Program Staffing	\$2,698,373	7%
Program Management*	\$1,081,869	3%
Allocated Costs	\$426,540	1%
Media	\$165,150	<1%
Program Support	\$192,330	<1%
Total 3-Year Program Expenditures	\$39,494,148	100%

*The Program Management total includes the sum of these costs across all summary charts and the partial cost of salary and benefits for the Executive Director and Media Planner for activities that cross all result areas.

POTENTIAL INDICATORS

Indicators are specific areas of measurable change the Commission aims to impact by funding the particular strategies listed. The indicators will be used to develop Results Based Accountability (RBA) plans to inform programming and measure program effectiveness.

PROGRAM STRATEGIES

Each priority has identified program strategies to be implemented to support the achievement of the Commission's desired goals. Based on past programming, current research, community input, and evidenced effectiveness, each strategy listed has been prioritized for funding.

PRIMARY POPULATION

In accordance with the Proposition 10 Children and Families Act, programs and services will be provided to pregnant women, children birth through five years of age, their parents/caregivers and early learning professionals. Some strategies will be geared toward specific, under-resourced populations in Sacramento County. For specific primary population details, refer to each Priority Area summary.

FUNDING MECHANISM

Some strategies will be subject to a competitive bid process. Some strategies will be subject to a non-competitive funding process: a) when there exists only a single entity that can carry out a given strategy, b) when an established infrastructure already exists for that strategy, or c) when braided funding or a matching requirement that complements First 5 funding exists. One strategy may be funded through a community-based, participatory funding process (the REDI+CR Funding Pathway). Finally, some strategies will go out directly from First 5 through Sacramento County purchasing policy.

Competitive bid processes serve as a means to seek qualified service providers who may or may not have previously contracted with the Commission. In addition, the competitive bid process provides the opportunity for new and innovative approaches. This proposal process will enable service providers to specify the means they plan to utilize to meet the Commission's goal(s) for a particular result area. New contracts will be negotiated and executed for a three-year period.

Requests for Proposals (RFPs) and Requests for Applications (RFAs) will be released in fall / winter 2023-24. The REDI+CR Funding Pathway process will take place in summer 2024. It is anticipated that funding recommendations will be made to the Commission in February - October 2024. Following contract negotiations, services will begin July 1, 2024 for all but the REDI+CR Funding Pathway.
